WHY COACH SPORTS?

Whatever your age, from Gap Year Student to Retiree, taking part in a Sports Coaching placement will be a hugely rewarding learning curve and an eye-opening experience for you!

Volunteer Sport Coaches are in great demand in the countries we work in. They help create an opportunity for children to learn new and exciting sports and help educate the teachers in terms of coaching sports.

You will be welcomed to your placement with great warmth and enthusiasm, and take away new skills, lasting memories, good friends and the knowledge that you were able to be part of a much bigger vision of supporting the empowerment of local people to make a better future for themselves. Be inspired, gain a new perspective and make a positive contribution to peoples' lives – the experience might well change your life in the process!

COACHING SPORTS

Sports coaching placements are very valuable for the children in the villages, towns and cities where we work. It teaches children team skills, social skills, communication skills and a sense of belonging. The interaction is a great way to improve the children's spoken English, which is a huge asset for their future life. In many of the countries we work in children are not exposed to sports and do not receive the opportunity to receive coaching. As a Travellers volunteer you can make a difference and change this.

We have many different sports placements and each one varies in terms of the age group you will predominantly work with, the hours of work, where and how you will work. Some of our sports placements are part time and after school where you can combine coaching with English teaching and some of them are full time and very intense where you will be totally involved full time in coaching, playing and developing sports. The choice is yours!

PLAYING SPORTS

Playing sports abroad is a great way to get totally immersed into the country's sporting culture, make friends, keep fit, socialise with local people, keep your skills up and have fun! As a Travellers Sports coach you will have the opportunity to train and possibly play (if you get selected) for a local team. We have a variety of sports clubs and teams that we work with in a number of countries.

In the evenings, usually once your coaching assignments have finished, you'll be able to train with a local team in your sport. Many of our sports volunteers really get involved with the local teams and some of them have had great sporting success on the field.

For many of them it is the highlight of their placement as the experience and fun they gain from it is amazing.

Below is a list of the sports you can play and the destinations that you can play in. If your sport is not there please contact us and we can probably arrange for you to play your sport somewhere:

These clubs and teams not only give valuable and necessary help to sports for children and in communities but are also kind enough to provide excellent opportunities for our volunteers to coach, train, play and develop sport in numerous countries.

TRAVELLERS TOURNAMENTS

In many of the countries where we work children do not have the opportunity to play competitive sport. As a Travellers Sports Volunteer, you'll have the opportunity to organise a sports tournament between the schools you work at the end of your placement. Organising these tournaments is a very good way to end your placement as you can see that all the hard work and effort you have put in will have paid off, and the children can really learn from it.
